

Solidworks Installation Instructions (2019-2020)

(Tested using Chrome, other browsers may vary slightly)

1. Click this link to get started: http://www.solidworks.com/sw/education/SDL_form.html
2. Fill out the form as shown here and click **Request Download**

*I already have a Serial Number that starts with 9020: Yes: ☒ No: ☐

If No, please enter SDK-ID, SEK-ID, or Trial Code:

Version:

Email Address:

Please Select one of the following:

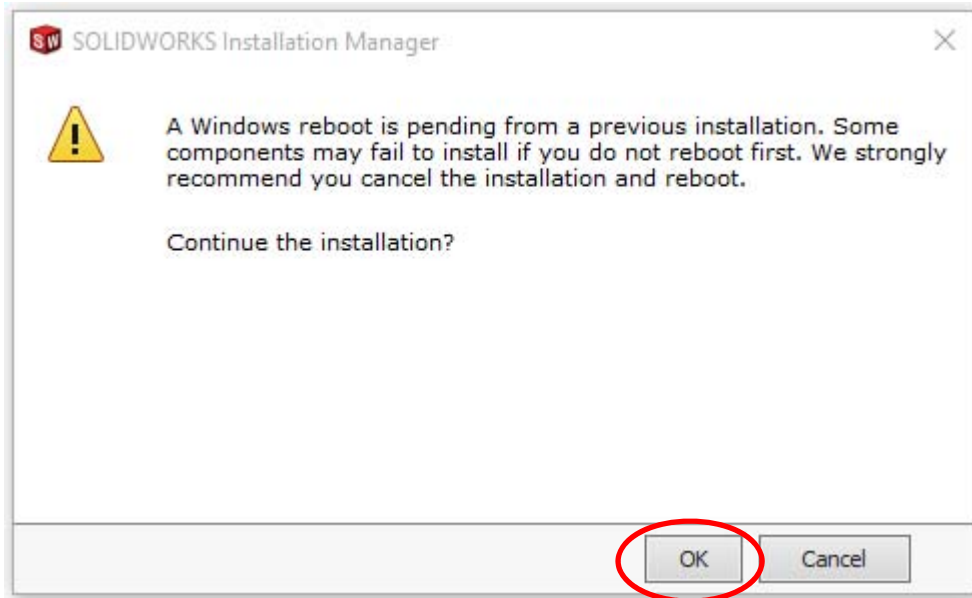

Request Download

3. On the next page, scroll to the bottom and click **Accept Agreement & Continue**
4. On the next page, click **Download**. At the bottom of your screen, you will see the **SolidworkSetup.exe** file. Double-click it to run it and click **Yes** if Windows asks for permission.

5. Click **Unzip** on the Winzip Self-Extractor and then **OK**.

6. You will probably see this error message. Click **OK** to continue.

7. Select **Individual** and click **Next**
8. Enter the student serial number and click **Next**.
Get the serial number from your class Blackboard site.

9. To save time and space, you can unselect products that you don't need. Do this by clicking **Change** on the Products line.

10. **Uncheck Plastics and Electrical.** No one has needed them to date. Then click **Back to Summary**

11. **Check the box to accept the terms** and click **Download and Install**

12. Wait – the download and install could take an hour or longer.

13. Click **Finish** on the Installation is Complete screen.

14. You may see a What's New PDF. You can close it and click the Solidworks 2019 icon on the desktop to get started.
